

The Anti-Intrusion Warning System at the accident site is a new type of police system independently developed by our company. It can effectively alert on-site police that someone has broke the site in time, which could avoid more accidents or secondary damage to the accident scene.

If assume the speed of vehicle is **100 km/h**, depending on the distance of the warning line, the system can generally provide an early warning time which is around **5.4s-7.2s**, and even **5.4s** is enough for us to span one or two lanes to escape, which could earn a precious time for on-site people to escape.

Anti-Intrusion Warning System could protects personal safety of police officers:

On the one hand, the flashing LED lights and superior reflective performance of the traffic cone which laid around the working area can strongly warn the drivers to detour.

On the other hand, when a vehicle breaks into the operating area and knocked them down, the equipment will be activated, and then warning the police officer with high decibel alarm, quickly inform the police officers: Dangerous around, Pay attention and evade.

Accessories Lists:

Multifunctional Alarm Traffic Cone LTC-2 *10pcs

Traffic Baton ST-397-2 *5pcs

Police Shoulder Light PSL-003-2 *10pcs

ACTIVATE ACCESSORIES:

Multifunctional Alarm Traffic Cone(LTC-2)

Multifunctional police alarm traffic cones are placed around the police operation area and form a roadblock to remind the driver there are police working ahead, please slow down and detour. And there are activation device inside the cone which could continue to stand by, once a vehicle breaks through the protective equipment and intrudes, the anti-intrusion warning system will be activated.

Multifunctional police traffic cone use integrated detection module, with a smaller weight and volume, convenient for transportation and fast installation.

ALARM ACCESSORIES:

When the alarm system is activated, the accessories will warning the police officer with high decibel beep alarm, quickly inform the police officers: Dangerous around, Pay attention and evade.

1.Traffic Baton(ST-397-2)

2.Police Shoulder Light(PSL-003-2)
